

# ProCut CNC Machining Services.

Welcome to ProCut's December newsletter

Giving you the cutting edge

## In This Issue

What we do.....

We cut, shape and profile any non ferrous sheet material.

3m x 1m Trellis Production 10 per hour on 1 machine (cost "A fraction of what you are probably paying")

The picture left is part of the stage set produced for a major London film and stage company to celebrate the 400 anniversary of one of London's oldest college's

### Materials we handle

Acrylic, Wood, MDF, DiBond, Polycarbonate PETG, Velstone, Corian, Styrene, Trespa, Foamex, PVC, Aluminium, Polypropylene, Chipboard, Nylon, Setapan, Parapan,

## ProCut Go Global.....

ProCut received its first order from the USA. The company Poker-Tec Inc is one of the largest gaming companies in the world.

The 25 poker tables (see picture left) are destined for their European operation, in this case France, the tables are some 8' x 5' in size with many fine details not visible in the picture.

## Late Christmas surge.....

At this time of year it seems Christmas presents are not the only thing many of us leave until the last minute! It never ceases to amaze us how many urgent/rush jobs turn up in the 3 weeks before Christmas, so as in previous years ProCut with its massive machining capacity stand ready for those last minute, urgent jobs.
